

Dear Sir/ Madam

***eTeens***  
**STI (Sexually Transmitted Infections) /**  
**HIV (Human Immunodeficiency Virus)**  
**Prevention Programme in Schools**

1. In view of the increasing number of STIs reported among youth aged 10-19 years<sup>1</sup>, HPB, in collaboration with the Ministry of Health (MOH) and the Ministry of Education (MOE), developed a STIs/HIV prevention programme titled *eTeens* for students in secondary schools and JC/CIs. The programme aims to raise awareness on STIs/HIV, inform students about ways to prevent infection and discourage risky sexual behaviours. Abstinence and upholding family values are the key messages in the programme.
2. *eTeens* for Secondary 3 students comprises an assembly talk and a classroom-based lesson. It covers information on the transmission modes of STIs, the signs, symptoms and consequences of contracting STIs/HIV, effective methods of preventing infection including abstinence from pre-marital sex, being faithful to one partner in the context of marriage as well as condom use. It also teaches life-skills such as decision-making, assertiveness and negotiation skills. *eTeens* is conducted in schools by trained personnel from HPB and teachers. A factsheet on the programme, which is available on the MOE website<sup>2</sup>, is enclosed.
3. If you do not wish your child/ward to attend this programme, please complete the form on the next page and return it to the school. For any clarification regarding this programme, please email us at [hpb\\_yhp@hpb.gov.sg](mailto:hpb_yhp@hpb.gov.sg).

Thank you.

Yours sincerely

Dr Chris Cheah  
Deputy Director  
Communicable Disease Education  
Regional Health and Community Outreach Division  
Health Promotion Board

---

<sup>1</sup> Reported cases of STIs among youth aged 10-19 years increased from 238 cases in 2002 to a peak of 820 cases in 2007.
